

ATTACHMENT F

CONTRACT FOR DESIGNER SERVICES

AMENDMENT NO. 14

WHEREAS, the Town of Watertown (“Owner”) and Ai3 Architects LLC (the “Designer”) (collectively, the “Parties”) entered into a Contract for Designer Services for the Watertown Elementary Schools Building Project on December 26, 2017 (the “Contract”);

WHEREAS, effective as of November 2, 2023 the Parties wish to further amend the Contract:

NOW, THEREFORE, in consideration of the promises and the mutual covenants contained in this Amendment, and other good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, the Parties, intending to be legally bound, hereby agree as follows:

- The Owner hereby authorizes the Designer to perform the following additional services in accordance with the Contract:

Watertown Elementary Schools Building Project Designer Amendment #14 Detail

Proposed Services	Fee
Additional acoustical engineer consulting services required to prepare a noise study in relation to the Lowell Elementary School rooftop chiller, including evaluation of the chiller sound and providing noise control recommendations as needed for compliance with state and local noise regulations. Please see the attached proposal dated October 30, 2023 from Cavanaugh Tocci for additional information.	\$9,000.00
Ai3 10% administrative mark-up:	\$900.00
Total:	\$9,900.00

- For the performance of services required under the Contract, as amended, the Designer shall be compensated by the Owner in accordance with the following Fee for Basic and Extra Services:

Fee for Basic and Extra Services	Original Contract	Previous Amendments	Amount of This Amendment	After This Amendment
Educational Planning, Programming, and Evaluation of Potential Solutions Phase				
<i>Cunniff Elementary School</i>	\$168,000.00	\$0.00	\$0.00	\$168,000.00
<i>Lowell Elementary School</i>	\$273,000.00	\$0.00	\$0.00	\$273,000.00

Total Fee	\$1,378,599.00	\$12,918,537.66	\$9,900.00	\$14,307,036.66

3. The Construction Budget shall be as follows:

Original Budget: N/A

Amended Budget: \$137.5M (Project Budget: \$170M)

4. The Project Schedule shall be as follows:

Original Schedule: October 2018 (Completion of Schematic Design Phase)

Amended Schedule:	Design Development -	complete July 2019
	Construction Documents -	complete January 2020
	Bidding -	complete Sept. 2019 thru March 2020
	Construction Administration -	complete September 2023
	Completion -	complete September 2024

5. This Amendment contains all of the terms and conditions agreed upon by the Parties as amendments to the original Contract. No other understandings or representations, oral or otherwise, regarding amendments to the original Contract shall be deemed to exist or bind the Parties, and all other terms and conditions of the Contract remain in full force and effect.

6. Detailed Scope of Services as follows:

IN WITNESS WHEREOF, the Owner, with the prior approval of the Authority, and the Designer have caused this Amendment to be executed by their respective authorized officers.

SUBJECT: Lowell Elementary School Rooftop Chiller Noise Study
Proposal for Acoustics Consulting Services

Dear Mr. Jordan,

At your request, I have prepared this proposal for our services in connection with a newly installed ground-mounted chiller located behind the J. R. Lowell Elementary School on the northeast side of the site in Watertown, MA. The school is located on Orchard Street with neighboring residential lots, and neighbors have complained of noise radiated from the chiller. The purpose of this study would be to evaluate the chiller sound and to provide noise control recommendations as needed for compliance with state and local noise regulations.

Scope of Work

Tasks 1—Measurements

- Measure sound levels near the chiller at grade and at the property line with the chiller on and off. These measurements will occur either before or after school hours with the mechanical contractor, General Mechanical, operating the chiller at full capacity.
- During the site visit, install a long-term sound monitor at a location on the school property that isn't affected by sound from the chiller to measure existing background sound. The monitor would log 1-hour sound levels used to develop applicable limits and acoustic design goals based on the existing sound environment.
- Return after one week to retrieve the sound monitor.

Task 2—Analysis

- Verify that the measured chiller radiated sound is consistent with manufacturer published sound data.
- Determine applicable state and local limits on sound.
- Create a computer model to develop sound control concepts as appropriate and evaluate expected compliance with regulatory limits.
- Provide a report summarizing applicable limits for this project, measurement results, computer sound level modeling results, noise control concepts, and estimated regulatory compliance. Recommendations would be suitable for your use to incorporate into drawings and specifications, including specs, sketches, and product recommendations.

Task 3—Submittal Review and Follow-up

- Review submittals and drawings for recommended noise controls, with follow-up as needed.

Exclusions

Not included are site visits during construction or post-construction sound measurements. We would be happy to provide proposals for additional services beyond those described above if requested.

Fee

<u>Estimated Cost of Services</u>	
Task 1. Measurements and Sound Monitoring	\$2,500
Task 2. Analysis and Report	\$5,000
Task 3. Submittal Review and Follow Up	\$1,500
Project Total	\$9,000

Our fees are calculated based on anticipated staff time in accordance with the enclosed schedule of rates.

Please indicate approval by signature below or by separate written authorization. Please do not hesitate to call me if you have any questions, and I look forward to working with you on this project.

Sincerely,
CAVANAUGH TOCCI

Standard Schedule of Charges

For all consulting assignments, invoiced costs for services are based on professional staff time spent and out-of-pocket expenses incurred during the course of the project. Professional staff time is charged on an hourly basis in accordance with the following rates. These rates include all indirect labor and other firm overhead costs:

Senior Principal Consultant	\$300 – \$350 per hour
Principal Consultant	\$200 – \$300 per hour
Associate Principal Consultant	\$180 – \$230 per hour
Senior Consultant	\$150 – \$200 per hour
Staff Consultant	\$120 – \$150 per hour
Technical Assistant/CAD Designer	\$80 – \$130 per hour

Professional staff time for travel to and from field conferences, project site measurements, and inspection visits are billed on a portal-to-portal basis from our offices in Sudbury, Massachusetts.

Direct project expenses are billed at cost and include all costs incurred for measurement instrumentation, computer modeling software use, and other significant charges directly associated with the consulting assignment. Expenses are billed at direct cost with no markup.

Invoices for services are billed on a monthly basis and are due net 30.

Effective 01 January 2023
